

Acomo acquires the Spanish family-owned company Citromil, expanding the Group's Organic Ingredients segment in citrus fruits sourcing and processing

Rotterdam (NL), 17 June 2026

ACOMO N.V., the Euronext Amsterdam-listed diversified, plant-based food ingredients Group, announces today that it has signed an agreement to acquire 100% of the Spanish organic citrus producer, Citromil S.L. The acquisition will further strengthen the Group's Organic Ingredients segment and will expand its citrus fruits sourcing and processing capacity. Post the completion of the acquisition, Citromil will be integrated into Tradin Organic.

Founded in 1991 by the Vilaplana Pérez family, Citromil and its facilities are located in the Murcia region of Spain, where the company processes the most important citrus fruits: lemon, mandarin, clementine, orange, pink grapefruit and lime. The company is active in the production of direct and concentrate juices, essential oils and other processed products derived from citrus fruits. Products are mainly sourced from local cooperatives directly supplied by farmers. The transaction is not material to the company's financial results, however, it provides a strong platform for future growth and it supports Acomo's broader strategic priorities.

Citromil will continue to operate under its own name and will become part of the Tradin Organic Group. Managing Director and founder, Roberto Vilaplana Pérez, will continue to manage the local business and will work in close coordination with the Tradin Organics Fruit & Vegetables organization to create more added value throughout the supply chain and business opportunities.

Allard Goldschmeding, CEO of Acomo, said: *"This acquisition is perfectly in line with Acomo's strategy of expanding investments in our Organic Ingredients segment, as presented at our Capital Markets Day in April 2025. It further supports our overall mission of building routes to healthier foods and further reinforces our future value creation capabilities."*

Floris Wesseling, CEO of Tradin Organic, stated: *"Building on our recent investment in a citrus bottling facility in the United States, this acquisition marks another important step in Tradin Organic's strategy to further integrate and strengthen our global supply chain. By expanding our processing capabilities in citrus, we enhance our ability to ensure quality, traceability and supply reliability, while creating new opportunities to deliver innovative, value-added citrus ingredients to our customers worldwide. The acquisition of Citromil also establishes a strategic footprint for Tradin Organic in Southern Europe, 'the organic garden of Europe', reinforcing our long-term commitment to sustainable sourcing, operational excellence and closer collaboration across the citrus value chain."*

Roberto Vilaplana Pérez, Managing Director of Citromil, said: *"Becoming part of Tradin Organic marks an exciting next step for Citromil. With our shared commitment to quality and sustainability, we see strong opportunities to further develop our capabilities and expand our reach."*

NautaDutilh N.V. is acting as legal and tax advisor to Acomo on this transaction, with Deloitte providing tax and financial due diligence advice and ECIJA acting as Spanish legal advisor to the Family and Acomo.

The acquisition is subject to customary closing conditions and is expected to close mid-2026.
